

ANNOUNCEMENT

The 10th Korea-Japan Joint Symposium on Composite Materials

Chonbuk National University (CBNU)

Jeonju, Korea, October 29, 2015

Organized by the **Korean Society for Composite Materials (KSCM, <http://www.kscm.re.kr/>)**
in cooperation with the **Japan Society for Composite Materials (JSCM, <http://www.jscm.gr.jp/>)**

Since the first Japan-Korea joint Symposium on Composite Materials was held in Sapporo, Japan in 2000, the Joint Symposia have alternatively been held as an every two-year event in Korea and Japan, and were very successful owing to not only the high quality of the papers but also the eager of participation.

The Joint Symposium aims to draw cooperative efforts from the composites communities of both countries in soliciting for works of various research topics and in promoting the participation of scientists, engineers and students in the related field. All topics and scientific/technological approaches for composite materials are pertinent to this joint symposium.

The tenth Joint Symposium will be held at the Chonbuk National University (CBNU; <http://www.jbnu.ac.kr>) in Jeonju City, Korea. Jeonju is 215km away from Seoul (the capital of Korea) to the south. Jeonju is renowned as a beautiful place where Hanok Village (<http://hanok.jeonju.go.kr>) resides. Hanok Village consists of traditional Korean-styled houses along with many other tourist attractions. The Chonbuk National University started with 2,700 students of 5 colleges with 16 departments in 1946. It has now grown up to a leading region-based university currently having 4 professional schools, 100 faculties in 14 colleges, and graduate and special graduate schools.

Registration

The registration fee is 10,000 Yen for Japanese participants and includes a copy of the symposium proceeding, welcome reception, banquet and visiting tour.

Technical Sessions

The symposium is conducted in English, therefore the two page proceeding manuscripts must be written in English. The topics include, but are not limited to: session A- Materials and Processing, Session B- Design and Applications, Session C- Properties and Durability, and Session D: Nano Composites and Smart Structures.

Schedule

Due date for application of paper title, author name and institution: July 31 (Fri), 2015

Due date for submission of two page manuscript: September 14 (Mon), 2015

Welcome Reception: October 28 (Wed), 2015

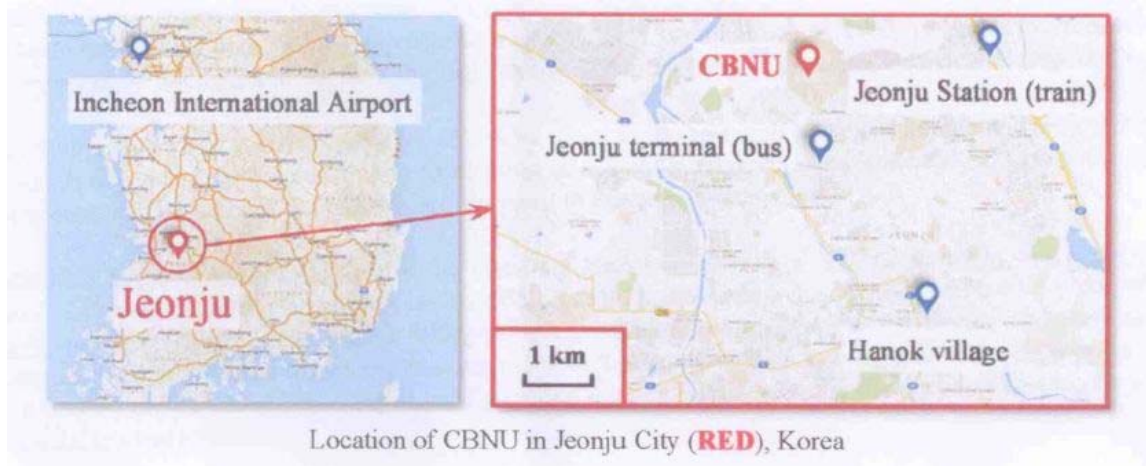

Joint Symposium and Banquet: October 29 (Thu), 2015

KSCM Fall Conference & Visiting/Technical Tour: October 30 (Fri), 2015

Location & Access

This year's Joint Symposium will be held at the Chonbuk National University (CBNU) in Jeonju City, which is located about 3 hours and 30 minutes away from the Incheon International Airport by limousine bus. For those who are willing to take the limousine bus, the bus is available at bus stop No. **9C (1st floor)** in the Incheon Airport. The bus arrives at the Jeonju Bus Terminal, from where taxi is available and takes another 5 minutes to CBNU.

Or alternatively, KTX (Korea Train Express) is also available for those who prefer a faster means of transport. The KTX leaves from the Incheon International Airport Station and passes Jeonju Train Station, which is 10 minutes away from CBNU by taxi.

As far as accommodation is concerned, new announcements will be made during the season. For further information, please contact:
